

HYDROTEC Solves Drainage and Aesthetic Issues

Stormwater runoff management is a major concern in properties that contain pools, fountains, landscaping and expansive lawns, but many drainage systems are difficult to install, challenging to maintain, and unattractive. As a result, HYDROTEC trench drains have seen significant growth in the luxury homes market, and are beginning to revolutionize the industry.

HYDROTEC offers a convenient, easy to install, durable trench drain that is aesthetically pleasing, and appropriate for use in high-end properties. Contractors and landscapers are so pleased with HYDROTEC's quality, service, and aesthetics that they are beginning to specify it on jobs.
