Re: Import Pipe Restraint Price Increase

SIGMA is announcing a price increase on its line of import Pipe Restraint Products.

Effective Tuesday, March 29, 2022, SIGMA will increase our pricing of **Import Pipe Restraint Products by 6%**.

Also, on our import Fitting and MJ Accessory pricing announcement of Wednesday, March 23rd, SIGMA failed to include Zinc Coated P-401 Lined Fittings. Effective immediately, SIGMA will increase our pricing of **Zinc Coated P-401 Lined Fittings by 20%**.

Finally, on the same pricing announcement of Wednesday, March 23rd, for import Fittings and MJ Accessories, we provided a May 2nd timetable for repricing backorders for items in those product categories. As of this communication, we are rescinding that planned repricing. Our hope and desire is to avoid repricing any orders of import Fittings and MJ Accessories. Any intention to reprice backorders will be communicated, if necessary, in the future

Please contact your SIGMA Territory Sales Manager if you have any questions.

As always, we appreciate your business and support.

Sincerely,

Greg Fox | Vice President of Sales
